| <b>Licht effect</b>  <p>The diagram illustrates the light effect of the spotlight. It shows a grey spotlight fixture mounted on a base, emitting a yellow conical beam. The beam is defined by two dashed lines. A solid line with an arrow indicates a range of 5 M from the fixture to the edge of the beam. Another solid line with an arrow indicates a range of 2,7 M from the edge of the beam to a point further along the beam's path.</p> |              |
